Digital Literacy: Skills for the Modern Student

UNDERSTANDING DIGITAL LITERACY IN TODAY'S WORLD

What is Digital Literacy?

Digital literacy means knowing how to use digital tools, apps, and online platforms in a smart and responsible way. In today's fast-moving digital world, students need to understand how to communicate, learn new things, and stay safe online. It is an important skill that helps in studies, future careers, and even daily life.

Useful Digital Tools for Students

- Google Workspace – Docs, Sheets, Forms
- GitHub – Code and project portfolio
- LinkedIn – Professional networking
- Canva – Presentations and designs
- HackerRank – Coding practice

Professional Online Presence

✓ Keep profiles clean and professional
✓ Use your real name or consistent username
✓ Post thoughtfully – future employers will see it
✓ Connect with professors and industry professionals

Safe Internet Practices

✓ Use strong passwords (mix of letters, numbers, symbols)
✓ Never share OTP with anyone
✓ Enable two-factor authentication (2FA)
✓ Avoid clicking on suspicious links
✓ Keep software and apps updated

Email Etiquette

✓ Clear subject line
✓ Professional greeting (Dear Professor,)
✓ Polite and concise body
✓ Proper sign-off (Regards, Thank you)
✓ Proofread before sending
